GRASSROOTS SUPPORT AND ADVOCACY

We work with community/residents at the grassroots to build resilience in their own household, neighbourhood and wider community.

We work with residents, groups, local leaders, businesses and all levels of government, building greater resilience in people, buildings and environmental resilience.

Work with groups including Resilient Kurilpa; Yeronga District Residents Association, Rocklea Community, Brisbane Floodies United and other local organisations.

We advocate to all levels of government for change and support vulnerable communities to prepare, strengthen and build resilience.
